

**Contents of
Bulletin of The Allahabad Mathematical Society (BAMS)**

VOLUME 14 (1999)

G. Aslim and G. Sh. Guseinov	Weak Semirings, v Semirings, and measures	1
G. Criscuolo and R. Giova	On the evaluations of the finite Hilbert transform by a procedure of interpolatory type	21
U.C. De and Bimal Krishna Mazumder	Nearly Kahler Spaces with Conservative conformal curvature tensor	35
V. Gaftoi, J. Lopez Bonilla and G. Ovando	An application of lovelock's theorem	41
Dharma P. Gupta	Three term contiguous relations for the basic hypergeometric functions	45
Santosh Kumar, Harjeet Arora, Cos Chiera and Gowri Raviganesh	Paths for self-healing protean networks	79
T. Pati	On the convergence and summability (C,1) of the Lebesgue-Fourier Series	95
D.N. Sarkhel	The Generalized sifting integral	105
S.D. Sharma and R.K. Singh	Composition Operators on Hardy spaces of the upper half-plane	129
V. Yegnanarayanan	On some extremal graph coloring problems of Nordhaus Gaddum class	147
