Rajneesh Kumar and B.S. Hundal	One-dimentional wave propagation in a non-homogeneous fluid saturated incompressible porous medium	1
Indrajit Lahiri and Sanjib Kumar Datta	On the growth properties of composite entire and meromorphic functions	15
J.L. Lopez-Bonilla, V. Gaftoi and G..Ovando	On a necessary condition for spacetimes of class two	35
A.E. Okeyinka and K. Fasanya	Implementation of the heapsort algorithm	39
A. Sri Ramulu, N. Kishan and J. Anand Rao	Hydromagnetic effects on three-dimensional couette flow with transpiration cooling.	51
Aribindi Satyanarayan Rao	differential equations with almost periodic solutions	63
P.R. Sengupta and Shyamal Kumar Kundu	MHD flow of reiner-rivlin visco—elastic fluid between two co-axial circular cylinders with porous walls and rotating boundaries .	73
Baljeet Singh, Jagdish Singh and Ajay Kumar	Reflection of thermoelastic waves from free surface of a cracked solid half-space.	83
D.K. Thakkar and Rajiv Viradia.	Countably s-closed spaces	95
M.K.R.S. Veera Kumar	“On $\hat{g}$ -closed sets in topological spaces”	99
