

**Contents of
Bulletin of The Allahabad Mathematical Society (BAMS)**

VOLUME 19 (2004)

Feng-Zhen Zhao and Tianming Wang	Some new Rogers-Ramanujan type identities	1
Mamta Kamra	An analogue of Plancherel theorem and translation invariant operators on	9
Temba Shonhiwa	A note on a class of binomial sums	19
B. Singh, R.K. Sharma and M. Singh	Common fixed points for weakly compatible maps in uniform spaces	27
Rajneesh Kumar and Praveen Ailawalia	Interactions of moving load velocity at fluid/micropolar viscoelastic solid interface	35
P. Mathur	$(0, 1, 3)^*$ -Interpolation on the projected zeros of an ultraspherical polynomial on the unit circle	49
S. Ahmed and N. Ahmed	Magnetic effects on free convective and heat transfer flow through porous medium	73
Pratulananda Das and Md. Mamun Ar Rashid	Semi- g^* -closed sets and a new separation axiom in the spaces	87

C.L. Parihar and Paheli Bansal	A brief review of fractional calculus	99
R. Devi, K. Muthukumaraswamy and K. Bhuvaneswari	The group structure of α -closed sets and strongly α -irresolute maps	109
