M. Sheik John and P. Sundaram	
On decomposition of continuity	1-9
Neelamegarajan Rajesh and Erdal Ekici	
On $\tilde{g}$ -locally closed sets in bitopological spaces	11-20
V.P. Saxena, P.R. Adhikary and D.B. Gurung	
Quadratic shape function Fem approach to temperature distribution problem in peripheral layers of human body	21-36
N. Palaniappan, E. Ekici, N. Rajesh and J. Antony Rex Rodrigo	
On new types of generalized closed maps	37-50
P.N. Pandey and B.B. Chaturvedi	
Semi-symmetric metric connection on a Kähler manifold	51-57
M.K. Gupta, Rajneesh and Surbhi Agarwal	
On b - I -open sets and a new decomposition of semi- I -continuity via ideals	59-68
Somashekhar Naimpally	
A short history of hyperspace topologies	69-100
B.K. Lahiri	
A survey of normal structure	101-141
